

£1 MILLION AND STILL GROWING!

Shropshire E-commerce provider Linesave UK Ltd is breaking its sales records on a monthly basis this year, following a massively successful presence at the 2008 Internet World Exhibition at Earls Court. They were one of 300 exhibitors showing off the latest products to more than thirteen thousand visitors from the rapidly evolving web development world.

The Linesave exhibition stand at Internet World

Incorporated in 1999 and located in the Square in Shrewsbury since 2004, Linesave has really accelerated its business over the last 12 months and is now running at the rate of £1 Million worth of e-commerce websites a year. Amongst its many recent successes Linesave has won the contract to create new websites for national company Cannon Hygiene,

So in spite of all the talk of doom and gloom Linesave has created a constant stream of new clients for its e-commerce systems. It may be quiet on the high street but it is all happening on line!

John Peters, MD of Linesave, says, " When you consider that 40% of SME's still dont have a web site and less than 20% sell on line it is evident that we have a huge market to tap into. Linesave is reaping the rewards of providing sites that work well for their customers, score highly on the search engines and deliver today's customers to their doors. We have built steadily to this point over the last few years, have learnt valuable lessons and our clients are seeing the benefits"

EDITORS NOTES:
