

## Green Achiever Accreditation

Keeping you  
up to date.

*Green Achiever General Update - January 15th, 2014*

### **New WEEE Guidance**

The new WEEE guidance provides information for any business involved in the sale, purchase or disposal of waste electrical and electronic items. We'd recommend that any business involved in the aforementioned activities takes a look at this document to stay updated.

[Click here to read the new guidance for 2014.](#)

### **How strong is your supply chain?**

Climate change and more extreme weather conditions may have already effected your business no matter whether you're an SME or a large organisation. This guide can help you to identify weaknesses in your supply chain, and suggests ways in which it can be made more resilient.

[Click here to read 'Assessing and Managing Climate Change Risks in Supply Chains'](#)

## Why should your business adopt green policies?

Hewlett Packard released a paper in 2009 which, from the outset, acknowledges how businesses go green to cut costs and increase profitability.

This document is extremely useful if you're looking to increase your savings through reducing your environmental impact. Remember to let us, at Green Achiever, know your plans for the future.

## DATES FOR YOUR DIARY

### 28/1/2014 - Resource Efficient Worcestershire Conference

The Conference will be a showcase of business resource efficiency, featuring great local and national examples, inspirational speakers and supplier exhibitions. You will have a chance to network with other local businesses and get a view from a national scale on improving your businesses resource efficiency and saving costs.

For more information, and to book a place, please visit the [Business Central website](#).
