

Green Achiever Newsletter

September 2015

Welcome!

We have listened to your responses to our questionnaire and have acted in accordance where possible to suit what our readers want to know about environmental issues. From now on we will be featuring more information on legislation updates, green business grants and tips, as well as advice articles from the [E4environment blog](#).

We hope you find this newsletter useful - if so, why not share it with a friend?

Thanking you for your loyalty,

Green Achiever & E4environment

How to Complete Your Packaging Return Without Going Absolutely Mad

"It isn't difficult for businesses to breach Producer Responsibility regulations; especially if they don't consider themselves to be a "polluting" company..."

Wales: The Welsh government is currently consulting on the [Welsh Energy Efficiency Strategy](#). It will seek to address affordability, energy supply security and decarbonisation.

Scotland: The Scottish Environment Protection Agency is in the process of [replacing its five current regulatory charging schemes](#) with a single system, in order to improve transparency.

Sponsor a Tree to Save on Tea

Trees absorb CO₂. A single tree can absorb as much as **48 pounds of CO₂** each year: the equivalent of boiling water for **205 cups of tea**.

Sponsoring a tree can be a great way to reduce your business' overall carbon footprint and show a commitment to the natural environment and biodiversity

If you're a **forward thinking green business**, you are just a few clicks away from sponsoring your own tree from the comforts of your office. E4 Environment will plant and nurture your tree as it grows, so you can sit back and relax, knowing you've done your extra bit.
